**Unenrollment of Student's from a Charter School
Utah Code 53A-1a-506.5 and Utah Admin. Rule R277-472.**

Policy:

The following information is concerning the transferring from a charter school to a district school. If these steps are not followed, a student could lose their spot in the charter school and subsequently not be able to enroll in the district school of their choice either. Utah state law establishes procedures that govern the withdrawal of students from charter schools for enrollment in district schools. See **Utah Code 53A-1a-506.5 and Utah Admin. Rule R277-472**. Specifically, Utah law states that parents are to provide notice by June 30th of their intent to withdraw from a charter school and enroll in another school (either a district school or another charter school) for the following year before June 30th, the school district must accept the student into the student's school of residence.

Procedure:

For example: If, during the school year a parent intends to withdraw their student from a charter school and re-enroll in their neighborhood district school for that school year, they should notify both the charter school and their local school district of that intent prior to June 30th. The district is required to enroll the student in their local neighborhood school.

If a parent wants to withdraw a student from charter school after the June 30th deadline or during the school year, state laws requires the parent to first go to the school district or other charter school and obtain a letter of acceptance for enrollment in the new school.

The parent then needs to give the charter school a copy of that letter of acceptance. Also, in this situation, the local school district is not required to accept the student into their school of residence if the parent did not notify the district before June 30th. The district is only required to accept the student into a school in the district that has adequate capacity.

For example: If the parent in the above example fails to enroll in the neighborhood district school prior to June 30th, the district doesn't have to allow the student to enroll in their neighborhood school if that school doesn't have adequate capacity for that school year. The district would then tell the parents which school has capacity for their child and the parent would be responsible for transportation to that school.

School districts should post information to their website about which schools in the district have adequate capacity. If they have not done so, you should contact the district office and request that information.

If you plan to enroll your student in a district school next year, please understand and follow the above-mentioned requirements. Once a student is un-enrolled in a charter school, the student by Utah state law must re-enroll through the lottery. **There is no guarantee of re-entry into the school regardless of the situation.**
